

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

A detailed collation is given in Fry's "Bibliographical description of the editions of the New Testament," p. 142, no. 28. Only three copies were known to Fry, his own, one in the British museum, and one in the Lenox library, all imperfect. The present copy, (187 ff.), lacks all after the Gospel of John, but has seven leaves at the beginning not found in the copies described by Fry, being [*i.], [*ii.], [*iii.], and the four corresponding unnumbered last leaves of the same signature. No title-page is known. The first page, which should be marked *ii. contains "An almanacke for xxviii. yeeares." (M.D.I. to M.D.Lxxvii.) The next six pages contain "The kalender," after which follows "A table to finde | the Epistles and gospels read | in the church of Englande, at the holye | Communion," seven pages, with "The booke containyd in | the newe Testament" added on the last page.

"A Table of the | principal matters con-|teyned in thys new Testa-|ment. Gathered by J. C." begins on the next page (the first in the other copies described). The signature is J.ii. (a talled star, not the simple six-pointed star of the first leaves), that of the next page is J.ii (an error, evidently), the next, J.iii., the next, J.iiii. In other respects Fry's collation is correct, except that "declaration" should be "de-claracion" on ¶ 7 verso.

This copy belonged to Bentley Masslich, who presented it to J. B. Harrison, of Franklin Falls, N. H. Mr. Harrison gave it to the College Library.

The author seeks to show "that the triumph over paganism of that type of Christianity which issued from the cauldron of theological strife as the only really orthodox form; which became stereotyped in Roman catholicism; which produced the crusades, the religious orders, and the inquisition; and which is now striving to assert its blighting supremacy over protestant Christianity, has been, not a gain, but a misfortune, to the world, and has retarded rather than promoted civilisation." — *Introduction.*

CLASSIFICATIONS OF THE BULLETIN. Beginning with number 18 of the Bulletin, library accessions have been classed under separate heads, for greater convenience to those following special studies. As the headings are brief, some of the subjects which fall under each (other than those which are perfectly apparent) are here indicated.

Works of a (1) *General* and miscellaneous nature come first, including bibliography, biographical reference books, library economy and history, and works on books and reading. This heading is followed by (2) *Theology and philosophy*, under which are placed both general and physiological psychology, ecclesiastical and biblical subjects, ethics and ethnic religions. (3) *Science* embraces medicine, veterinary science, pseudo-science, and magic. (4) *Useful arts* includes all forms of industrial science, manufactures and handicrafts, the combative arts, agriculture, landscape-gardening, building (but not architecture), navigation, and aeronautics. (5) *Fine arts* embraces music, the archæology of art and numismatics. (6) *Antiquities* (including

folk-lore) takes other departments of archæology; popular ballads and tales, as well as mediæval romances, find their place here, while ballads not of popular origin appear under the final head; here too are placed anthropology and ethnology. The scope of (7) *History and geography* (including politics and general biography) is sufficiently indicated by its title, but it should be explained that biographies of artists should be looked for under Fine arts, of astronomers under Science, etc.; genealogies and heraldry also fall here. Under (8) *Law and sociology* appear statistics, commerce, finance, political economy, jurisprudence, reforms, charities, education, public morality and hygiene, and public works, together with manners and customs, sports and games. (9) *Philology* embraces all departments, not only of language, but also of classical and oriental studies, excepting such as more properly fall under the second and sixth heads. Palæography also is placed under this heading. Finally, (10) *Literature* includes elocution and rhetoric.

There is also a special *Art* library, which now numbers 893 vols. and some 1000 pams. The library of the late Francis Peabody added greatly to this department.

San Francisco, Cal. — SUTRO LIBRARY. (George Moss, Acting Librarian.)

This library is intended to be mainly a scientific and technical one, free to the public for reference. It is at present still in process of collection, and in temporary quarters, and therefore not ready for general use. Its historical and literary departments, however, as well as the scientific, contain some noteworthy collections. In the former may be named: about 4000 vols. of *incunabula*, mainly

from the duplicates of the great Munich library; extensive purchases of *classical and early books* from the Duke of Dalberg's library and the monastery of Buxheim; about 10,000 pams. of the *English Civil war and Commonwealth period*, from the Sunderland library — a number since increased by other purchases to about 25,000; an equally large number of later English pamphlets, ranging down to the time of George III. and later, among which are many relating to the *United States* and our early struggles for independence, and many curious *railroad* pamphlets. There is a large collection of *old English plays*; the great series of English Calendars of State Papers, and other solid collections for *English history*. About 1000 vols. were bought from the Chipstead Park library of the late Frederick Perkins, including fine illustrated books and the great European art-galleries. There is a remarkable collection of *Mexican books*, including about 20,000 pams., largely of the time of the Mexican war of independence, 1810-1820, but many of them earlier, and many more ranging down to the French invasion; this collection includes also about 30,000 vols. of Mexican and Spanish books, many old, rare, and valuable. There are two very curious collections of books of *Semitic philology and literature*; one of mss., very old and of very great interest, bought in Jerusalem; the other the library of the late Schiller-Szinessy of Cambridge, England, being a working library of the Semitic and Hamitic languages, literature, theology, and history, of about 1500 vols. In the scientific part of the library may be noted: the working library for *chemistry* of the late Secretary Wells of the English Society of Industrial Chemistry, about 2500 vols.; the *military* library collected by the late Col. David Wilder of San Francisco, about 1100 vols.; many large and valuable illustrated works on *architecture*, and many important series and single works on *botany*, these two departments being at present exceptionally strong. Many important works have also been bought on *zoölogy*, on *scientific voyages*, and other departments of natural science and mechanics.

The library of the *Fathers* is tolerably complete, almost entirely in the best Benedictine editions, for all writers of the East and West down to

A.D. 500, and for Western writers to 1400. The collection, in 276 vols., was made by T. Mozley Starke, and presented by Mrs. C. M. Manigault of England.

The library of the historian *Von Ranke* was the gift of Mrs. J. M. Reid of New York to the University. This important addition, numbering about 18,000 vols., 3,000 pams., and 1500 mss., is especially rich in *German and Italian history*, and in works relating to the *French revolution*, the collection of contemporaneous pamphlets on this last subject being rare and extensive. The mss., largely on Italian and German subjects, have been exhaustively catalogued by Dr. Wiedemann of Berlin, *Von Ranke's amanuensis*. A complete history of each ms. was written out, and an extensive index prepared. This catalogue of mss. is a magnificent work of bibliography, and took Dr. Wiedemann about three years to complete.

The *Von Ranke* library is not at present available to students, as the German catalogues have not as yet been adapted to the library.

library was founded when the Board was organized in 1852. An index catalogue of the library of the Light-house Board was published in 1886. It is by authors only.

The use of the library is virtually restricted to the officers of the light-house service, who are scattered throughout the maritime States of the Union. It is, as to them, a lending library.

Washington, D. C. — NATIONAL MUSEUM. (John Murdoch, Librarian.)

The library of the National Museum is under the charge of the librarian of the Smithsonian Institution, and is exclusively scientific.

The Rau library of *archæology*, 715 vols. and 1722 pams., was bequeathed to the Museum by the Curator of *archæology*, the late Dr. Charles Rau.

The Isaac Lea collection, 1106 vols. and pams., almost exclusively *zöological*, was presented to the Museum by the heirs of the distinguished naturalist, Dr. Isaac Lea, of Philadelphia.

The Samuel Brown collection, 150 vols., containing many rare and curious old works on *alchemy*, *chemistry*, and kindred subjects, was presented by Dr. J. C. Brown, of Haddington, Scotland.

"Sectional libraries" are collections permanently loaned to the curators of special branches of science in the Museum from the accessions to the Smithsonian deposit in the Library of Congress as well as from books belonging exclusively to the Museum. Among these are the departments of:—

The library contains about 15,000 vols. on *hygiene* and kindred subjects, which includes the old Naval medical library of 3000 vols., and was founded in 1882 by its present director.

Washington, D. C. — NAVAL OBSERVATORY LIBRARY. (H. M. Paul, Librarian.)

This is essentially a reference library, intended to be as complete as possible in *astronomy* and *mathematics*; the collection of serials in these subjects is probably more complete than in any other library in the United States. From 1845, when the library was founded, until 1878, the growth was principally by exchange; since 1878

the annual appropriation bills have contained a regular item of \$1000 for the library, which has been expended in completing and keeping up the *periodicals*, and in purchasing old and rare books and such important new ones as could not be obtained by exchange. The library is especially rich in complete sets of the publications of the older *academies of science* and of the long-established *periodicals* devoted to astronomy and geodesy, mathematics, physics, and chemistry. It is practically complete in the publications of *astronomical observatories and societies*, of *geodetic bureaus* and of the older *meteorological and magnetic observatories*; also in *star catalogues* and *charts*, in *astronomical tables* and *ephemerides*, in the *bibliography* and history of astronomy and mathematics, and in the collected works of astronomers, mathematicians, and physicists. It has a pretty full collection of *mathematical tables*, including some rare early prints of logarithm tables.

Besides the endeavor towards completeness in all branches of astronomical literature and the other above-mentioned subjects, the library obtains the most important modern works (separate treatises and periodicals) in the various branches of mathematics, physics (especially full in *optics*), chemistry, electricity and magnetism, photography, engineering, geography, horology, and instrument-making.

Washington, D. C. — PATENT OFFICE — SCIENTIFIC LIBRARY. (Howard L. Prince, Librarian.)

This library, containing about 60,000 vols. and pams., possesses the *patent publications* of all nations, and in addition a general collection of *applied science*. There are about 1300 vols. on *electricity*, in which the library has used more especial efforts than in other branches to make its collection fairly complete, at least as far as recent publications are concerned. Next to this the collections on *sanitation* and *photography* may be mentioned.

About 2000 vols. a year are added through purchase, gift, and exchange. A catalogue was printed in 1878 and supplements in 1883 and 1888.

A card index of articles in about 200 scientific and technical periodicals in English and Continental languages, commencing Jan. 1, 1891, is now in use.

Washington, D. C. — POST OFFICE DEPARTMENT. (Miss Lucy A. Henley, Librarian.)

The library contains, besides government documents, 1000 vols. on the *postal service*.

Washington, D. C. — SURGEON-GENERAL'S OFFICE, U. S. ARMY. (John S. Billings, Surgeon, in charge.)

The library of the Surgeon-general's Office, the largest medical library in the world, has 104,000

vols. and 159,000 pams. This is thought to include over ninety per cent. of the medical literature of the last ten years and about one eighth of the medical works issued before 1500. The first volume of a printed catalogue appeared in 1880, and the twelfth, in 1891, comes down to Shuttleworth.

Washington, D. C. — U. S. COAST AND GEODETIC SURVEY. (F. H. Parsons, Librarian.)

The library contains 300 atlases, 12,000 *charts*, American and foreign, and 15,000 vols.

The special directions in which additions are being made to this collection are along the lines of pure *mathematics*, *astronomy*, *geodesy*, *metrology*, and the publications of engineering and other *scientific societies*.

Washington, D. C. — U. S. GEOLOGICAL SURVEY. (Charles Darwin, Librarian.)

The library of the survey, begun in 1882, contains already 30,811 vols. and 60,000 pams. A small number of these were inherited from the old Hayden survey; 1900 were purchased from Robert Clarke of Cincinnati, and formed an almost complete collection of the official *geological reports* of the United States; 700 vols. and 5000 pams. were bought at the sale of the Desnoyers collection in Paris, relating to European and early geology, and especially rich in *vulcanology*; but the larger part of the collection has been received through a carefully organized system of exchange with geological institutions and societies.

The library is strictly confined to books relating to *geology* or containing matter of geological interest. Its collection of United States geological survey publications, both state and federal, is practically complete. In *palaeobotany* its collection may be said to be complete as to North America, and nearly complete in descriptive and systematic works relating to all lands, and to all branches of the subject, with the exception of works treating of fossil diatomaceae.

In *geology* it has the important works and in *palaeontology* good working collections as well as a large and fine collection of author's excerpts and separates.

The library is collecting and indexing and arranging all *maps* which would be of use to the scientific corps of the survey, and has already 20,000.

A general bibliography of North American geology is under way.

Washington, D. C. — U. S. WEATHER BUREAU. (Oliver L. Fassig, Librarian.)

The library, of about 13,000 vols., contains 6000 vols. on *meteorology*, 600 meteorological charts, besides other scientific works. Additions at the rate of about 1000 vols. a year are due largely to exchanges with foreign and home meteorological services. A catalogue was printed in 1872 and

again in 1880. The library has a card catalogue of the printed literature of meteorology down to the close of 1881, with an incomplete supplement to the close of 1890. The portions of the catalogue relating to temperature, moisture, winds and storms — some 15,000 titles in all — have been included in O. L. Fassig's Bibliography of meteorology, 1889-91.

In July, 1891, the Weather Bureau was transferred from the Signal Service Bureau, War Dept., to the Agricultural Dept. There is at present in the Signal Corps, U. S. A., War Dept., a special library of about 500 vols. on *military signalling* and allied subjects.

✂ By a recent joint resolution of Congress the principal governmental collections in Washington were declared to be "accessible, under such rules and restrictions as the officers in charge of each collection may prescribe, or as are already, or hereafter may be, prescribed by act of Congress, to the students of any institution of higher education incorporated under the laws of Congress or of the District of Columbia." The object of the above resolution was stated to be "to encourage the establishment and endowment of institutions of learning at the national capital by defining the policy of the Government with reference to the use of its literary and scientific collections by students."

Wellesley, Mass. — WELLESLEY COLLEGE LIBRARY. (H. Hawes, Librarian.)

Has a collection of over 400 works for the study of comparative philology, with special reference to *North American languages*; the gift of Prof. E. N. Horsford. A catalogue was printed in 1888.

The purchase of the Powell Library by Prof. Horsford in May, 1891, increased this collection by some 1020 vols. and pams. This library was collected by Major J. W. Powell, Director of the Bureau of Ethnology, and consists largely of works compiled by missionaries to further their religious labors among the Indians. Prof. Horsford has also added the mss. of Dr. Silas T. Rand, late missionary to the Micmac Indians.

West Point, N. Y. — U. S. MILITARY ACADEMY. (Prof. Peter S. Michie, Librarian.)

The library, founded in 1812, contains 81,000 vols. and 3200 pams., the majority dealing with *science*, *military tactics*, *mathematics*, *civil engineering*, *veterinary art*, etc.; and is for the use of professors, officers, and cadets only.

Additions are now made by purchase from the annual appropriation of Congress, and average 800 vols.

A catalogue was printed in 1876 and a supplement in 1882; a card catalogue was begun in 1891.

Wilkes-Barre, Penn. — WYOMING HISTORICAL AND GEOLOGICAL SOCIETY. (— Librarian.)

The library, devoted to *Americana* and *science*, numbers about 5000 vols. and 5000 pams. It has been formed principally by gift and exchange since 1858, and makes a specialty of matter relating to the *Wyoming Valley*; it has about 1000 mss. relating to the latter subject; also 7000 *coins*.

The private library of Rev. Horace Edwin Hayden, one of the members of the Society, relates to the same subjects and contains 4000 vols. and 4000 pams. and 2000 coins. See his "Bibliography of Wyoming" in the Proceedings of the Society, li. 86-131.

science, in all 4500 vols.; also periodicals on *decorative painting*, joinery, and furniture, and especially those relating to the *fine arts*. In the last department may be mentioned a full set of the plates issued by the *Arundel Society*, and a considerable and growing collection of photographs of works by the great masters. The library has a complete set of Cobbett's Parliamentary history of England, Hansard's Parliamentary debates, and complete sets of the Congressional globe, Congressional record, Niles's register, Annals of Congress and Congressional debates, and other material useful in the study of English and American history.

Funeral sermons: a collection begun by Samuel G. Drake; 1500 pams.

Worcester, Mass. — WORCESTER SOCIETY OF ANTIQUITY. (Thomas Adams Dickinson, Librarian.)

The library of the Society, 14,000 vols., relates principally to *local history* and *genealogy*. The "George Allen Library" of 2300 vols. and 2000 pams. illustrates the theology of New England or *Congregationalism*, and contains many rare books once owned by distinguished ministers, with their notes, and with annotations by Mr. Allen.

The John Downes collection comprises 631 *almanacs*, with some fine specimens of English almanacs of the 17th and early part of the 18th centuries; also about 500 vols. of scientific works used by Mr. Downes in making computations for the Nautical almanac; publications of *Isaiah Thomas*; 12 different issues of the New England Primer from 1779; and a collection of *early school books*.

Catalogues of the Downes collection and the George Allen library are in preparation. There is a complete set of the Proceedings of Congress since 1789 in the Society's library.

The Editors regret that they are unable to include any account of the largest library in the United States, the Congressional Library in Washington. In the present crowded condition of that institution, the librarian has found it impossible to furnish any satisfactory statement in detail of its resources.

The Treasurer having read to the Board a letter written on January 19, 1882, by the late WILLIAM F. WELD, Jr., in relation to the anonymous gift he then made of \$90,000 for a new professorship in the Law School, and having stated that the obligation of secrecy no longer exists, it was

Voted, that the Law School professorship which was founded in 1882 be hereafter called the Weld Professorship of Law in memory of the late WILLIAM F. WELD, Jr., who generously gave \$90,000 to found it, but would not allow the name of the giver to be made known during his life.

The resignation of AUGUSTUS W. LONG, A.M., as Proctor was received and accepted.

Voted, to appoint as Proctor for the remainder of the year 1892-93, ALEXANDER LEE BONDURANT, A.M.

The Treasurer stated that researches made by Mr. ANDREW MCFARLAND DAVIS have brought to light the fact that Lady ANN MOWLSON, of London, in the year 1648, founded the first scholarship in Harvard College by the gift of £100 "current English money," requesting "that JOHN WELD now a scholler in the sd Colledge shall have the sd stipend till he attaine the degree of a Master of Arts," and afterwards some other poor scholar in like manner, any kinsman of Lady MOWLSON having preference over other scholars.

It also appears clearly that the gift was at first held by the Colony of the Massachusetts Bay, and that the principal sum with accrued interest from 1685 was paid over by the Province Treasurer to the College in the year 1713. It is probable that this fund was mixed with other College funds during the early part of the last century and now forms part of the Stock account. It was thereupon

Voted, to take from the Stock account, as of August 1, 1892, the sum of \$5000 and to re-establish the Lady Mowlson Scholarship with an income at present of \$200.

Voted, that after the close of the current academic year the care of students' rooms in the Foxcroft House shall be assumed by the College, and that the appropriation of \$275 a year heretofore made to the Foxcroft Club shall be discontinued.

The President read a letter from HENRY SALTONSTALL, Esq., offering to give to the College a portrait of his son, GURDON SALTONSTALL, who was a student in Harvard College in 1874 and 1875, whereupon this gift was gratefully accepted, the portrait to be hung in Memorial Hall on the usual conditions.

Voted, that the thanks of the President and Fellows be sent to JOHN BARTLETT, Esq., for the very interesting collection of books on Proverbs, Emblems, and the Dance of Death, which he has given to the College Library.

The resignation of Professor WILLIAM H. BURR, C.E., as Professor of Engineering, was received and accepted to take effect at the end of the current academic year.

The resignation of HARRY F. BROWN, A.M., as Assistant in Chemistry was received and accepted.

"To Harvard University five thousand dollars (\$5000), the interest of one half to be given as a scholarship annually to a deserving student in the academical department. The interest of the other half to be given annually as a scholarship to a deserving student in the Medical department."

Voted, that this bequest be gratefully accepted and that two scholarships amounting at present to \$100 each be established from the income of the Orlando W. Doe Scholarship Fund.

MEETING OF MARCH 9, 1893.—The President laid before the Board the following declaration of trust, or terms of subscription, for the Phillips Brooks House, and after full consideration the Board authorized the President to say to the Committee having the undertaking in charge that the President and Fellows assent to the said declaration, and will gladly carry out its provisions so far as their action may be required.

"SUBSCRIPTION FOR PHILLIPS BROOKS HOUSE.

"Friends and Classmates of Phillips Brooks propose, with the consent of the President and Fellows of Harvard University, to erect in the College Yard a building to be called Phillips Brooks House, to be perpetually maintained and used in that spirit which filled his life.

"He was," says President Eliot, "one of the greatest benefactors the University ever had; for he gave himself, his time, thought, and love, his burning words, and his convincing example of purity, uprightness, and manly piety."

"The plans will be made satisfactory to the President and Fellows who will assign a good site for the building in the College Yard, and accept the building and its endowment upon the trust to maintain and use the building and apply the endowment to its maintenance in such manner as they, in their discretion, shall from time to time deem best for the religious, charitable, and social interests of the University, in accordance with the following statement, signed by Phillips Brooks, November, 1890, as one of the Preachers to the University:

"The building 'should contain a general reading-room for students, rooms for the various religious societies, and large and small rooms for meetings and for the use of the Preachers. It should be generously used for all the various public interests of University life, and should unite and strengthen many undertakings which now rather tend to divide the forces which make for good among the students.'

"The President and Fellows will arrange all details of use and administration in accordance with their own judgment, provided, however, that among other good uses the building shall always be used impartially and without favor for all those forms of spiritual activity, benevolent action, and religious aspiration in which the best life of the University may, without distinction of sect or denomination, from time to time find expression.

"To do this a fund of not less than \$300,000 is needed. The use of the building and endowment will be broad, and time will develop many methods of application which cannot now be foreseen. Some of those objects which are desired are expressed in the accompanying circular, but the subscription is not limited to the uses therein mentioned, if others of like good character arise.

"Subscriptions to the fund may be sent to any member of the Committee or to EDWARD W. HOOVER, Treasurer, No. 60 State Street, Boston.

Committee.

"The undersigned severally agree each to give the sum set against his name to be used and applied to the erection and endowment of Phillips Brooks House upon the general plan and specific trust set forth in the foregoing statement of the Committee."

Voted, that the thanks of the President and Fellows be sent to each giver towards a Phillips Brooks House, and that the name of each be entered on the Donation Book of the College.

A BIBLIOGRAPHY

OF THE

HISTORICAL LITERATURE OF NORTH CAROLINA.

BY

STEPHEN B. WEEKS, PH.D. (JOHNS HOPKINS UNIV.),
Professor of History and Political Science in Trinity College, North Carolina.

. The following list can be considered as nothing more than a preliminary catalogue to serve as a basis for future work toward a full and complete Bibliography of the Historical Literature of North Carolina. The collections of the State in Raleigh, of the University at Chapel Hill, of Trinity College, and Wake Forest College, of the Johns Hopkins University, the Maryland Historical Society, and the Peabody Institute of Baltimore, have been examined, besides numerous private collections. The work, begun in 1887, has been done at odd moments and under difficulties, for complete sets of magazines, like the *North Carolina University Magazine*, *Our Living and Our Dead*, *Land We Love*, and *South Atlantic*, which contain much material on our history, are very rare and almost impossible to obtain. There is, moreover, no large collection of the pamphlets and shorter papers on our history in existence. Some titles have been taken from book catalogues, but whenever possible the collation has been from the book itself.

Adair, James. The history of the American Indians; particularly those nations adjoining to the Mississippi [*sic*], East and West Florida, Georgia, South and North Carolina, and Virginia: containing an account of their origin, language, manners, religious and civil customs, laws, form of government, punishments, conduct in war and domestic life, their habits, diet, agriculture, manufactures, diseases and method of cure, and other particulars, sufficient to render it a complete Indian system. With observations on former historians, the conduct of our colony governors, superintendents, missionaries, &c. Also an appendix, containing a description of the Floridas and the Mississippi [*sic*] lands, with their productions—The benefits of colonizing Georgiana, and civilizing the Indians—And the way to make all the colonies more valuable to the mother country. With a new map of the country referred to in the history. By James Adair, Esquire, a trader with the Indians, and resident in their country for forty years. London: Printed for Edward and Charles Dilly, in the Poultry. MDCCLXXV. 4°. pp. 464. *Map*.

A German edition appeared at Breslau, 1782, 8°; in E. King's *Antiquities of Mexico*, vol. 8, London, 1848, f°. — PILLING, *Bibliography of the Iroquoian Languages*.

Adair points out various customs of the Indians having a striking resemblance to those of the Jews; and the great object of his work appears to be to prove that the aborigines of America are descended from that race. Some distrust seems to have fallen upon his statements, although he himself says that his account is neither disfigured by fable nor prejudice. — RICH.

The author is a German by birth and enters fully into the spirit of his work. It is based on original sources, and the search for materials was exhaustive. Every colony of Germans in the Carolinas was traced to its origin; missionary journals, found to have been sent by the first ministers in North Carolina to Germany and published there, but no longer known to exist, were sought for and obtained in Europe; church records, State records, minutes of synods and private journals were constantly used.

— New edition. Richmond, Va. 1866. 2 vols.

Edition of 200 small and 40 large paper copies. Edited by and published at the expense of Thomas H. Wynne of Richmond. This edition was from the originals; the edition of 1841 being imperfect and incomplete.

"The manuscripts offer abundant internal evidence that they were written merely for the amusement of the author and for the perusal of his family and friends, and not with any view to their being printed."—Preface to ed. of 1841.

"Many ingenious flings abound in this memoir by Byrd, which is so full of adulation of the people of his own State and of depreciation of 'poor pensive Carolina.' . . . Byrd seemed to imagine that the sun only rose to shine on Virginia, and that the whole country from Cape Cod to Cape Sable belonged to her; that she was the great planet around which all the other colonies moved as humble satellites."—J. H. WHEELER in *Men and Times of early Albemarle*.

"Col. Byrd was plainly dominated by a spirit of rollicking, coarse, vulgar humor, that spared neither friend nor foe. That he was willing, however, to do full justice, even at the expense of Virginia, in matters of serious substantial import, is manifest."—Col. W. L. SAUNDERS in *North Carolina under Proprietary Government*, 45.

Carroll, R. B. Historical Collections of South Carolina. New York. 1886. 8° 2 vols.

These volumes could have been called, and with better propriety, "Historical Collections of the Carolinas and Georgia." They contain many rare and valuable pamphlets and other documents relating to the history of these States from their first discovery and settlement to 1776. Vol. I. has a map of the Carolinas accurately copied from the map of James Cook, London, 1771, and Henry Mouzon, 1775. (These were both, as well as others of this period perhaps, made from that of Wimble in 1738, and were out of date and incorrect. Dunbabin's was made from actual surveys in 1764.)

Caruthers, Eli W. (-1865), *A.M., D.D.* A Sketch of the life and character of the Rev. David Caldwell, D.D. Near sixty years pastor of the churches of Buffalo and Alamance. Including two of his sermons; some account of the Regulation, together with the Revolutionary transactions and incidents in which he was concerned; and a very brief notice of the ecclesiastical and moral condition of North Carolina while in its colonial state. Greensboro, N. C.: Swaim & Sherwood. 1842. 8° pp. 304.

This volume contains much rare and valuable material for the social life of the colony.

— Revolutionary Incidents: and sketches of character, chiefly in the "Old North State." Philadelphia: Hayes & Zell. 12°. First series, 1854, pp. 431. Second series, 1856, pp. 448.

The first volume is devoted to the earlier days of the Revolution and its causes. The Tory movement in North Carolina and its origin is treated fully; much attention is given to the battle of Moore's creek and to the career of Col. David Fanning. Vol. II. contains an account of the British invasion of 1781; a defence of the conduct of the North Carolina militia at Guilford Court House; miscellaneous incidents and personal sketches, with a map showing the routes of Cornwallis and Greene, and a plan of the battle of Guilford Court House. The volumes do not purport to be grave history, or to treat the more important events fully, but are made up of "incidents" gathered from the mouths of the people, tales, legends, and romances of the olden times, and are of much value for social life. Reviewed in *N. C. Univ. mag.*, 1854, iii. 476.

These volumes are labeled on back: "The Old North State in 1776."

Catesby, Mark (1679-1749). The Natural History of Carolina, Florida, and the Bahama Islands, with figures colored after the life. London. 1731. f°. 2 vols. 220 plates.

This important work was begun this year and continued in numbers or parts until 1748, when the appendix completing the work was finished; second edition in 1754; third in 1771; text in English and French. The edition of 1771 was revised by Mr. Edwards, and a Linnean index of animals and plates was added. f°. 2 vols. 220 colored plates. Catesby's plates were etched by himself from his own drawings and colored under his inspection. The second and third editions are considered inferior to the first in respect to the beauty of the plates.

Catesby spent the years 1710-1719 travelling in America. He came out again in 1722 and remained until 1726. A German edition of the history appeared at Nuremberg, 1756.

Chalmers, George. Political Annals of the present United Colonies, from their settlement to the peace of 1763. London. 1780.

The chapter relating to the Carolinas (XVIII. of book I.) was reprinted in Carroll's *Collections*, II. 273. For book II. see *Collections* of New York Hist. Society for 1860.

It was unfortunate for the State that Chalmers was the first to examine the public offices in London for information concerning North Carolina; because his work has been standard authority with all later historians of Carolina, while his "general accuracy as to matters of fact is by no means perfect," and his "bitter prejudice as a loyalist render his conclusions utterly unreliable."—Col. W. L. SAUNDERS in Preface to *Col. Rec. N. C.*, I. iii.

"Chalmers' account in all cases of the kind must be received with great hesitancy. The coloring is always wrong; the facts usually perverted. He writes like a lawyer and disappointed politician, not like a calm inquirer. His statements are copied by Grahame, obscured by Martin, and, strange to say, exaggerated by Williamson."—BANCROFT.

After this, different parts were parcelled out to each pupil . . . and on Friday afternoons the whole was rehearsed in the presence of visitors." — *Preface.*

Not until the publication of these records has it been possible to write an accurate account of any particular phase in the historical development of North Carolina, for the original records in the office of the Secretary of State in Raleigh were remarkably incomplete, and of the first fifty years almost nothing remained.

This was due very largely to the lack of towns and of suitable buildings where such records might be preserved. This lack of *materia historica* has been long felt, and as early as 1827 the Governor was instructed by the Legislature to procure from the British Government copies of all papers relating to the colonial history of the State. Correspondence was begun, and in that year minister Gallatin forwarded to Gov. Burton a list of such papers as related to North Carolina. This list was printed in 1843 [see *supra*]. Other efforts were made in 1849, 1855, 1857, 1859, and 1861, to further the work, but nothing was accomplished. In 1881 the Legislature directed the Trustees of the Libraries to print what colonial documents were then in the State. The gaps in these records were found to be so many and so great that the Trustees determined to ask the State for aid toward making the records more complete. This aid was given by the Legislature of 1888. Col. Samuel McDowell Tate of the House, and Hon. James L. Robinson of the Senate, being especially instrumental in securing its adoption.

The work of compiling and editing devolved on the Hon. William L. Saunders, LL.D., the accomplished Secretary of State, who brought to it a tireless energy, a love that knows no bounds, and a devotion unsurpassed. "How he has performed the task thus assigned to him it is not for him to determine. He can only say, that for near seven [eleven] years he has devoted himself to it, and that he has done the very best he could, without reward, or the hope of reward [and this when suffering untold agonies from rheumatism, a part of the proof being read while lying on his back and unable to turn from side to side], and solely because of the love he bears to North Carolina and her people."—*Preface* to vol. i. p. vii.

Mr. W. Noel Sainsbury, of the British Record office, was employed to search the British archives. His work was thoroughly done, and there are perhaps few papers in England relating to North Carolina of which copies have not been secured. Unfortunately the work does not seem to have been so thoroughly done on this side of the Atlantic. A supplementary volume containing omitted documents is much needed. The prefatory notes by the editor form a running political history of the colony. Of editing, in the exact sense, there is none. There is very pressing need for an accurate and full index.

"TO THE PRESIDENT AND FELLOWS OF HARVARD COLLEGE,

"When, compelled by illness, in 1891, I resigned the position I had for twenty years held as your first Professor of Ophthalmology, your kind assurances of 'obligation for twenty years of honorable service,' and of 'seeing with satisfaction that during this period the subject had won an important place among the studies of the Medical School' were most grateful to me.

"My experience in these years of teaching at a period when our knowledge of the functions of the Eye and our resources for promoting its well being and usefulness far surpassed anything before attained, impressed me with the importance of the department charged with the welfare of the Organ of Vision; so superlatively essential to the scholar, and the instrument by the aid of which the major part of all which increases human welfare and happiness is accomplished.

"Therefore, in the hope of continuing to be useful as a promoter, in the promising field, I offer to the University \$25,000 as a special Fund; for the maintenance of a Professorship of Ophthalmology: — with the proviso, that during the lifetime of my wife, the income of this Fund shall go her use, payable to her order.

CLASSIFICATIONS OF THE BULLETIN. Beginning with number 18 of the Bulletin, library accessions have been classed under separate heads, for greater convenience to those following special studies. As the headings are brief, some of the subjects which fall under each (other than those which are perfectly apparent) are here indicated.

Works of a (1) *General* and miscellaneous nature come first, including bibliography, biographical reference books, library economy and history, and works on books and reading. This heading is followed by (2) *Theology and philosophy*, under which are placed both general and physiological psychology, ecclesiastical and biblical subjects, ethics and ethnic religions. (3) *Science* embraces medicine, veterinary science, pseudo-science, and magic. (4) *Useful arts* includes all forms of industrial science, manufactures and handicrafts, the combative arts, agriculture, landscape-gardening, building (but not architecture), navigation, and aeronautics. (5) *Fine arts* embraces music, the archaeology of art and numismatics. (6) *Antiquities (including*

folk-lore) takes other departments of archaeology; popular ballads and tales, as well as mediæval romances, find their place here, while ballads not of popular origin appear under the final head; here too are placed anthropology and ethnology. The scope of (7) *History and geography (including politics and general biography)* is sufficiently indicated by its title, but it should be explained that biographies of artists should be looked for under Fine arts, of astronomers under Science, etc.; genealogies and heraldry also fall here. Under (8) *Law and sociology* appear statistics, commerce, finance, political economy, jurisprudence, reforms, charities, education, public morality and hygiene, and public works, together with manners and customs, sports and games. (9) *Philology* embraces all departments, not only of language, but also of classical and oriental studies, excepting such as more properly fall under the second and sixth heads. Palæography also is placed under this heading. Finally, (10) *Literature* includes elocution and rhetoric.

wonders of our truly wonderful forests and fields, and had been led away, quite unconsciously, by the florid accounts of Harriot and Amadas and Barlowe and Lawson. The analysis which Dr. Curtis made left but little of the fabulous statements of the early chroniclers disproved, and proved Dr. Hawks to have been slightly informed about natural history. The paper is an almost complete key to Lawson's History, so far as the natural history items are concerned, although it is not a continuous narrative." — Dr. T. F. Wood in sketch above.

But even with these faults, *King's Mountain* is, as a bulky storehouse of information obtained at first hand regarding the Revolutionary war in the South, a permanently valuable contribution to American historical literature."—R. For these articles Mr. Eggleston photographed a part of the Grenville collection of the original drawings, from which De Bry's engravings of North Carolina Indians were made. The Grenville collection is larger than the Sloane collection, which has been supposed hitherto to represent the originals of De Bry. The pieces of the Grenville collection are also immensely superior in technical quality, and Mr. Eggleston argues in *The Nation* for April 23, 1891, that the Grenville collection contains the original drawings used by De Bry, and not the Sloane collection; that they "are John White's originals, which were used with some changes by De Bry, and that the Sloane pictures are not original, but early and rather clumsy copies."

"Mr. Gilmere writes very well and is an enthusiast in his admiration of John Sevier. . . His two books, above mentioned, excite an interest equal to that produced by, perhaps, any historical romances since Sir Walter Scott's. . . This, however, will be accomplished largely at the expense of the intelligence, honesty, and character of the governors, legislators, and people of North Carolina." . . Mr. Gilmere's "zeal in defense of Sevier has prompted him wilfully or ignorantly to libel the people of North Carolina. He certainly does slander them shamefully." — Col. A. M. Hakluyt, Richard (1553-1616), Editor. Collection of Voyages. 1598-1600.

This collection contains nearly all the original material on the history of the first attempts of the English to fix settlements in America. He prints:

(1) The letters patents granted by the Queen's Majesty to M. Walter Raleigh, 1584 (iii., p. 243, *seq.*).

(2) The first voyage made to the coasts of America by M. Philip Amadas and M. Arthur Barlowe, 1584 (iii. 246). This narrative, as the context shows, was the work of Barlowe.

(3) The voyage made by Sir Richard Granville for Sir Walter Raleigh to Virginia, 1584 (iii. 251).

(4) An account of the particularities of the employments of the Englishmen left in Virginia by Richard Granville under the charge of Master Ralph Lane, General of the same (iii. 255).

(5) The third voyage made by a ship sent in the year 1586 to the relief of the colony planted in Virginia (iii. 265).

(6.) A brief and true report of the new found land of Virginia: by Thomas Hariot (iii. 266). This edition of the "Brief and True Report" is abridged.

(7) The fourth voyage made to Virginia, with three ships in 1587, wherein was transported the second colony (iii. 280).

(8) The fifth voyage of M. John White, into the West Indies, and parts of America called Virginia, 1590 (1591) (iii. 289).

A new edition of Hakluyt was published in London, 1809-1812, 5 vols., 4°. Vols. i., ii., iii., and a part of iv. are exactly reprinted from the edition of 1598-1600. The remainder of the fourth and the whole of the fifth are occupied by reprints of various publications of Hakluyt and of others of his time.

These documents will all be found in the new edition of Hakluyt, recently issued by E. & G. Goldsmid of Edinburgh in 16 vols., and in their edition of *The voyages of the English nation to America, extracted from the complete collection of Hakluyt's voyages*. 4 vols. Edinburgh. 1889-1890. 8°. ii. pp. 276-388.

Besides the above, vol. ii. of *The voyages of the English nation to America* contains John de Verrazano's report to Francis I., written at Dieppe, 8 July, 1524, giving an account of his discoveries off the North Carolina coast. This was probably the first time that white men landed on this coast.

The papers in regard to the settlement of Raleigh on Roanoke Island have been reprinted in America by Dr. Hawks, *History of North Carolina* i., and by Increase N. Tarbox, *Sir Walter Raleigh's Colony in America*.

Hariot, Thomas. A briefe and true report of the new found land of Virginia. London. 1588. 4°. 28 leaves.

This edition is of great rarity. There is a copy in the Lenox Library, another in the British Museum, and a third in the Bodleian, Oxford.

In 1590 De Bry published Hariot's narrative with a map and twenty-three plates from the drawings of John White, and to secure more profit had the text printed in English, Latin, French, and German, thus offering four editions to the public. This was the only part of his collection of "Voyages" that appeared in English. It was after the publication of this work that De Bry conceived the idea of his collections, and Hariot's narrative forms the first part of his "Great Voyages." Hariot is perhaps best known from De Bry's English and Latin editions.

Church of God, pp. 23-660; Kehukee Primitive Baptist Association, 661-926; life of C. B. Hassell, pp. 927-933, *portrait*.

It was the intention of the early members of the Kehukee Baptist Association [so called from a meeting house on Kehukee creek in Halifax county, N. C., where the association was organized in 1765] to have its history written and published at the end of each generation. The first history was written by Elders Lemuel Burkitt and Jesse Read [q. v.], and published in 1803. The second by Joseph Biggs [q. v.] in 1834. In 1876 C. B. Hassell was appointed to pre-

pare the third edition, and also a history of the church from the creation. He had prepared nearly all the Kehukee and special Primitive Baptist history and the history of the church from 4004 B. C. to 350 A. D. at his death, April 11, 1880. His son was appointed to complete the work. He revised his father's manuscripts and brought the history down from A. D. 350 to 1885. — Preface.

The sections relating to the Kehukee Association, which alone concern N. C., are cast in the form of annals, and consist largely of indigested materials, with much relative to doctrine.

This article takes the form of a review of Prof. George Tucker's Life of Thomas Jefferson (2 vols., Phil., 1837, 8°).

Tucker had undertaken to defend Jefferson against J. Seawell Jones [q. v.]. Dr. Hawks stoutly contends for the authenticity of the 20th of May Declaration, and handles the memory of Jefferson roughly. He attacks his religious character, and charges him with plagiarizing several well-known phrases from the Mecklenburg Resolves of May 20. Prof. Tucker defends Jefferson from the charge of plagiarism in "Defence of the Character of Thomas Jefferson against a writer in the New York Review. By a Virginian." (New York. 1838. 8°. pp. 46.) The *Southern Literary Messenger* for April, 1838, has a spirited article entitled "The New York Review of Mr. Jefferson Reviewed," and in the number for August Dr. Cyrus L. Hunter replies to the writer and defends the Declaration of the 20th of May.

Sabin, *Dictionary of Books Relating to America*, says that the third volume of this work was printed and shipped south about 1861. I have never seen a copy, nor have I ever found any other mention of it.

Dr. Hawks reprints in his first volume the narratives given by Hakluyt [q. v.]. In the second he has reprinted many original papers that have more recently appeared in the *Colonial Records of North Carolina*.

Dr. Hawks possessed the broadest scholarship and the highest literary attainments of any one who has written on the history of N. C.; but he is at times bigoted and a partisan. The second volume deals largely with social phenomena as the following contents will show: i. Exploration and Settlements; ii. The Law and its Administration; iii. Agriculture and Manufactures; iv. Navigation and Trade; v. Religion and Learning; vi. Civil and Military History; vii. Manners and Customs.

"In regard to the richness and value of his materials, Dr. Hawks has vastly the advantage of his predecessors, while in historical judgment and in skill as a writer he has no very formidable competitors among them."—F. M. HUBBARD in his elaborate review in *North American Review*, July, 1860, xci. pp. 40–71.

"This work is largely documentary, but it is prepared with the well known skill of one of the most eloquent writers and orators of his day, as well as one of the foremost of antiquarians."—C. K. ADAMS in his *Manual of Historical Literature*.

"In dealing with this subject of our early history, he [Dr. Hawks] would have done well to follow the lead of the great northern historian [Bancroft], instead of that of the English and Virginia Tories. But no careful reader of Dr. Hawks can fail to see that his patriotic feelings as a North Carolinian are in this regard overborne by his reverence for the Church of England."—D. R. GOODLOW in *Wheeler's Reminiscences*, p. xx.

year 1796, including the boundaries of the State. Knoxville, Tenn.: Printed for the author by Heiskell & Brown. 1828. 8° pp. 4, 504.

"This work, only less rare than the *Aboriginal History of Tennessee* by the same author, contains a large portion of the material relating to the border warfare with the Indians, narrated in his other work. The speculative and antiquarian portions and descriptions of mounds are omitted in this volume, but the story of Indian conflicts and massacres is narrated with greater detail and minuteness, filling much the larger portion of the work. The story of the formation of the State of Franklin, and the civil war which ensued, is a chapter of American history but little known, and scarcely exceeded in interest by any other."—FIELD.

There is a tradition that the name Iredell was originally Ireton, and that the family were collateral descendants of Henry Ireton, the son-in-law of Oliver Cromwell. The story of Judge Iredell's life is told in his letters and those of his friends, including all the men who were prominent in Revolutionary times in North Carolina. Many of the Judge's own letters were written in the press of business; but they have an elegance and vivacity not always found in such productions. The book is the best and almost only authority for the social, political, and intellectual life of N. C., 1776-1800.

The printing of these volumes was paid for by James C. Johnston of Edenton.

This work is based on authority, and citations are numerous; but a distinctively hostile animus pervades the whole; references to Byrd, the fun-loving and democracy-hating Virginia cavalier, and to Smyth, the Tory, are many; while the accounts given by Bancroft, the one historian of the U. S. who has been able to appreciate the intense democracy of the colony, are ignored entirely or garbled, so as to prove a conclusion entirely different from the original one. The effort seems to be to emphasize throughout the bad and hide the good in the colony, and the errors made are legion. The answer of D. R. Goodloe to Prof. Fiske's "Maryland, Virginia, and the far South in the colonial period," will apply equally as well to this.

He is very severe on Tarleton's work, "in which," he says, "some facts have been withheld, and some mutilated, while others are raised to a pitch of importance, to which, if historical justice had been the author's object, they are by no means entitled. Prejudice and party spirit are also some of its most important features." — *RICH*.

McMillan thinks the Croatan Indians the representatives of the colonists. He has lived among them for many years, and knows their history and traditions. He advanced this theory in 1896, while a member of the General Assembly of North Carolina, and it was through his influence that the tribe was recognized as such.

— The history of North Carolina from the earliest period. New Orleans: A. T. Penniman & Co. 1829. 8°. Vol. i., pp. xii. 826; appendix, cxiv.; vol. ii. 412.

The idea of preparing this work occurred to Judge Martin as early as 1791, and was strengthened by his employment in 1803 to publish a revival of the laws, when he had access to the records of the State. It appears from his preface that materials had been collected to bring the story down to 1810, but the continuation was never published. The materials on which his work was based were carried to Louisiana, and probably lost.

Martin had no ambition to write a philosophical history. There is no attempt to set forth events in the relation of cause and effect, nor to state them in such a way that this relation will become obvious. The work is thrown into the form of annals; the succession of paragraphs often seems to be determined by nothing else than the juxtaposition in time of the events they contain; events occurring in distant parts of the globe are inserted which have no connection, except in proximity of time, to the history of North Carolina. His readers will not often imagine that the author was ever very severely tempted to mistake a fact for the sake of an antithesis, or to sacrifice the truth of history to elegancies of style. The utmost he seems to have aimed at is clearness and precision. He sometimes rises to a rude picturesqueness of description, but it seems to be done unconsciously. The work has certainly great merits. There is a large accumulation of materials. The statements are made with much perspicuity; but the structure of the work betrays many marks of haste and carelessness. He closes with the Declaration of Independence.—Prof. F. M. HUBBARD in address before N. C. Hist. Society. *N. C. Univ. mag.*, 1882, i. 350.

Martin's accumulation of facts carries no advantage by any sort of correlation except that of dates. A painstaking search, as far as his opportunities permitted, and a perspicuous way of writing, stand for the work's chief merits.—JUSTIN WINSON in *Nar. and Crit. Hist. Amer.*, v., ch. v.

The literature of this subject is great; much of it appeared in newspapers; some appeared anonymously. It has been thought best to insert the shorter and anonymous articles under this heading.

— Documents showing that Mecklenburg county, North Carolina, declared independence of Great Britain, May 20, 1775. Raleigh: J. Gales & Son. 1822. pp. 15.

Copied from *Raleigh Register*, April 30, 1819, Feb. 18 and May 26, 1820. The article of April 30 was also copied into Niles' *Principles and Acts of the Revolution*, with a subsequent editorial from the same paper explaining causes that led to the exhuming and publication of the so-called Mecklenburg Resolves.

— Address of Dr. M. Winslow Alexander, in Hopewell Church, Mecklenburg county, N. C., July 5, 1824, on the Declaration of Independence by the citizens of Mecklenburg county, N. C., May 20th, 1775; and by act of the legislature of North Carolina, April 12th, 1776. *Catawba Journal*, Oct. 19, 1824, and republished in *South-eastern Home*, Charlotte, May 10, 1875.

This address enumerates 25 delegates to the convention, and gives Col. Thomas Polk, not Col. Adam Alexander, as the person who issued the call for the convention.

— Newspaper articles, apparently published in N. C., in 1830, "calling in question," as Foote represents them, "the authenticity of the document, as being neither a true paper, nor a paper of a true Convention."

— The Declaration of Independence by the citizens of Mecklenburg county on the twentieth day of May, 1775. Raleigh. 1831. 8°.

This is the second official publication of the State of North Carolina defending the authenticity of this declaration against the charges of Thomas Jefferson in his letter to John Adams, dated Monticello, July 9, 1819. Published under the authority and direction of the General Assembly of 1830-31. It contains the original publication in the *Raleigh Register*

of April 30, 1819, which first called attention to the declaration, depositions of surviving participants then living, with miscellaneous papers and the proceedings of the Cumberland association. The preface by Gov. Stokes was written at his instance by Gov. Swain.

This is inserted in Force's *American Archives* II., except the preface, and with it the partial series of Resolves found by Peter Force in *New York Journal* of June 29, 1775.

— In the *National Intelligencer* for Dec. 18, 1838, Peter Force announces his discovery of the preamble and first four resolves of the series passed by the people of Mecklenburg, May 31, 1775, and publishes them with introductory remarks.

— Niles' *Register*, May 25, 1839, copies an article from the *Raleigh Register*, but with no credit, in which it is said: "We are aware, that when publicity was first given to the Declaration in 1819, through the columns of this paper, its authenticity was doubted by some, and openly denied by others."

— Mecklenburg Declaration of Independence: the question settled. *So. Lit. Mess.*, June, 1839.

Gives account of Force's discovery, and contrasts the difference of sentiment between the Resolves of the 20th of May and those of the 31st. L. C. Draper thinks this article was the work of Prof. Tucker.

— *Raleigh Register*, Feb. 14, 1847, republishes the set of 20 resolutions in full, found in *South Carolina Gazette*, June 13, 1775.

This was the first time these resolutions were republished; the copy was doubtless furnished the *Register* by Gov. Swain. It was copied in the *National Whig* of Feb. 23. It included the letter of Gov. Wright of Georgia of June 30th, 1775, which was first brought to light by Mr. Sparks, and subsequently by Mr. Bancroft in London.

— Letter of George Bancroft dated, London, July 4, 1848, to Gov. Swain, announcing his discovery of the 20 resolutions published in the *S. C. Gazette* of June 13, 1775. Published in the North Carolina newspapers at that time. *So. Presby. Review*, March, 1849.

— Editorial in *American and Commercial Daily Advertiser* of Baltimore, Jan. 27, 1849, on the two sets of resolutions.

— Editorial in Fayetteville (N. C.) *Observer*, Feb. 27, 1849, relative to the papers Mr. Bancroft had obtained from England.

— The writer of the Mecklenburg Declaration. Written by James P. McRee of Somerville, Tenn., and communicated by Rev. S. J. Baird to *Presbyterian Magazine*, Feb. 1852.

Claims that Adam Brevard, a younger brother of Ephraim Brevard, wrote out the Declaration, taking the Westminster Confession as his guide.

— The Mecklenburg Declaration, by Samuel S. Force (1835-1856; son of Peter Force), in *Nassau Literary Magazine*, Princeton, N. J., Sept. 1853.

Argues in favor of Resolutions of 31st May, and says that Gov. Wright would have sent the more vehement resolutions of the 20th, had there been such.

Mecklenburg Declaration of Independence. Letter of Joseph Wallis of Chapel Hill, Texas, in *National Intelligencer*, Aug. 18, 1857, copied from the *Western Democrat*.

Mr. Wallis denounces all as "liars and slanderers" who call in question the meeting of May 19th and 20th, 1775, and the Declaration then said to have been proclaimed, or who assert that John McKnitt Alexander, the writer's grandfather, did not act as secretary of that meeting, or that he did not act honorably and honestly as custodian of the papers.

This severe denunciation applies, so far as the secretaryship is concerned, to Gen. George Graham, Wm. Hutchinson, Jonas Clark, Robert Robinson, Isaac Alexander, and Col. Wm. Polk.

Mr. Wallis also offers "personal satisfaction" to any such individuals.

Mr. Wallis was the son of Rev. James Wallis of Providence settlement, and says he remembers seeing his father stamp on Williamson's *History of North Carolina*, because it did not contain a carefully prepared account of the Declaration by J. McK. Alexander.

Communication in *National Intelligencer*, Nov. 6, 1857, from Allen White, Starkville, Miss., calling the editor's attention to the McRee-Brevard statement [*supra*] in *Presby. Mag.*, Feb. 1852, and reproducing it.

This affirms that Adam Brevard wrote the Mecklenburg Declaration and took the Westminster Confession as his guide. Dr. Welling, the editor, remarks that he can see no trace of the Confession in the Declaration.

In *The True Witness* of New Orleans, May 26, 1860, Rev. R. E. Sherrill cites a letter written by James P. McRee, in which he now says that Adam Brevard wrote the Declaration as the amanuensis of his brother. The influence of the Westminster Confession is reasserted.

Thirteenth edition, 70th thousand, 1893.

This is the first of the histories of North Carolina which touches upon the period of the late civil war. The unwillingness of North Carolina to join in secession, the devotedness she showed to the Southern cause after she joined it, and "her hearty submission to the fortunes of war" at its close, are told in a manner most commendable for its patriotism and freedom from that narrow partisan bias which still holds apart the sections of a country which cannot but be "one and indivisible." — *Mag. of Amer. — History of North Carolina; from the earliest discoveries to the present time. Raleigh: Alfred Williams & Co. 1880. 8°. vol. i., pp. xxi. 495; vol. ii., pp. 530.

Not the same as the School history, but an enlargement; not a history of the people, but of the politicians; probably the best of all the books dealing with the history of the State as a whole.

Reviewed unfavorably in *Mag. of Amer. Hist.*, v. 471, because the author "writes from a local standpoint and reasserts the claim to State sovereignty."

Reviewed in *South Atlantic*, 1880, vi. 69-71, 173-176.

"Respectfully shows, that he has been engaged for several years in collecting and arranging materials for an extensive Historical and Scientific Work on North Carolina. His success thus far has equalled his expectations; but he finds himself unable to prosecute this work to its completion, without the munificent aid of your honorable body. Few gentlemen in North Carolina have estates sufficient to bear the expenses and losses of such an undertaking. For independent of the direct expenses in travelling over several of the adjoining states, and carefully exploring every section of this State, for the purpose of collecting materials; and the further direct expenses of engaging the services of eminent men in science, in the department of geology, mineralogy, and botany, the author must in a great degree abandon all other pursuits and devote his time and attention to this alone. Such a work will be

voluminous, and cannot be expected to yield a profit to the author, particularly if published in a style worthy of the State. . . . When completed it will add something to the general literature of the country, and much to the credit of North Carolina." Dated Dec. 5, 1825.

Judge Murphey then submits a plan according to which he proposed to write the history. This outline is admirable. He divides his work into seven parts: i. An account of the discovery of America; ii. The aboriginal history of North Carolina; iii. The colonial history of North Carolina; iv. History of North Carolina from the time of her becoming a sovereign State in 1776; v. Physical geography, soil, climate, and meteorology of North Carolina; vi. Geology and mineralogy of North Carolina; vii. Botany of North Carolina. The sylvia, flora, and fungi of the State. Under iii. and iv. the social history of the State was fully developed.

Judge Murphey's appeal was an idle one. He died a few years later and his collections were scattered.

— Memorial to the General Assembly of North Carolina, Jan. 1, 1827.

Noticed in *North American Review*, Apr. 1827, xxiv. 468-470. The reviewer remarks: "The history of few states is so little known, as that of North Carolina. This has not been for any want of material, or of important events to record. When all these shall be brought to light, it will be found that North Carolina, both in its early character, and in its progress, has maintained a place among the very first of the states." Judge Murphey's Memorial was an application to the Legislature to grant him aid in preparing a history of North Carolina. He thought of extending his work to "six or eight octavo volumes, exclusive of geology, mineralogy, botany, and meteorology."

— Roster of North Carolina troops in the war between the States. Prepared, by order of Legislature of 1881, by John W. Moore, late major commanding third battalion, light artillery. Raleigh: Ashe & Gatling. 1882. 8° vol. i., pp. x. 581; ii., pp. 4, 743; iii., pp. 4, 741; iv., pp. vii. 458.

This Roster is made up mainly from the N. C. "Roll of Honor" and from the muster rolls of N. C. troops in the Confederate service, which were captured in Richmond in 1865, and are now in the Archives office of the War Department. Many of these were very imperfect; many omitted names; scarcely one had full accounts of casualties. There were sixty-eight regiments of original volunteers. To these are to be added the four regiments of Senior and Junior Reserves, which, with the battalions, will increase the sum to the equivalent of eighty full regiments. In 1860, N. C. had polled 112,586 votes, and the white population was about 600,000. Many company lists and one whole regimental list (the 68th) are missing; with these lacunae the numbers recorded foot up 104,498. Maj. Moore thinks that 150,000 would not be an overestimate of the force. Others have put the figures at 125,000.

According to Lt.-Col. Fox's *Regimental Losses of the American Civil War*, 1861-1865, North Carolina lost from wounds and disease 40,375 men, out of a total loss for the Confederacy of 140,821. In 1861 the State had a military population of 115,369. The State loss assumes, then, the heroic proportion of nearly 35 per cent.

— North Carolina, 1780-81. Raleigh: Edwards & Broughton. 1889. 8°. pp. 498. *Map of the Carolinas, plans of battles, portraits.*

This is a history of the invasion of the Carolinas by the British under Lord Cornwallis, in 1780-81. Its particular design is to show the part borne by North Carolina in that struggle, and to correct some errors in regard to the State and her people.

"In examining different accounts of the battle [of Guilford Court-House] by Lee, Johnson, and others, the author found that injustice had been done the North Carolina militia in regard to their conduct on that occasion. Further research not only confirmed this opinion, but showed him that the injustice was not confined to that battle, but that the State had been robbed of the honor due her for repelling the British invasion in 1780. It was to correct these impressions and to show the part taken by North Carolina in the closing struggles for independence, that the book was written."—S. B. W. in Johns Hopkins University *Studies in Historical and Political Science*, viii. 585-588.

"While Judge Schenck has not given a full account of the Revolutionary war in this State, his design not being so comprehensive as that, yet he has given the leading events in brief, and then has devoted himself to the portrayal of the incidents of the invasion of 1781. He has thrown light on every subject he has touched. His researches have been very extensive, and the arrangement of his facts is very satisfactory."—Raleigh *News and Observer*, Dec. 24, 1880.

Schenck, David, LL.D., Editor. Narrative of the battle of Cowan's Ford, 1 Feb. 1781, by Robert Henry, and narrative of the battle of King's Mountain, by Capt. David Vance. Greensboro: Reece & Elam. 1891. 8°. pp. 50.

Henry's narrative, pp. 5-14; Vance's narrative, pp. 15-33; Henry's account of King's Mountain, pp. 34-39; sketch of Vance, pp. 41-50.

Judge Schenck writes the compiler: "Henry's account of the battle of Cowan's Ford is totally different from that given by Gen. Graham, which latter I adopted in my history. If I had seen Mr. Henry's account before I wrote my book, I would certainly have adopted it. It bears the impress of truth and is a narrative by one who was an actor in the scene and is entirely consistent with the whole local surroundings. I feel sure that no true account of the battle of Cowan's Ford has been published except this."

Vance's account of King's Mountain was the basis of Draper's King's Mountain, and the copy for the present publication was secured from him. Since this pamphlet appeared the original mss. in the handwriting of Robert Henry has been found and is now in possession of William Henry of Buncombe county, N. C.

These accounts were published at the expense of Atty.-Gen. T. F. Davidson, a great-grandson of Capt. Vance.

This is the third number of the series of monographs devoted to the history of education in the United States; edited by Professor Herbert B. Adams, Ph.D., Johns Hopkins University.

This work was accepted at the Johns Hopkins as a thesis for the degree of Ph.D. "The work is in a hitherto unexploited field. The materials for it were quite abundant, but scattered; besides the general histories of the State, Mr. Smith was the first to make use of the recently published *Colonial Records*; church and denominational histories, local and town histories, sketches of particular periods, biographies, public acts and laws of the State have been used. Many monographs, catalogues, and reports have been brought into requisition in a field new to Carolina—*Culturgeschichte*. The volume is the result of much labor, of careful research, of painstaking sifting, and thoughtful digestion of evidence." — *S. B. W. News and Observer*, Feb. 19, 1889.

THE LIST OF ACCESSIONS.

It has been the custom heretofore to set up the titles of current accessions of books to the Library in small type, and the same composition sufficed both for the cards of the catalogue and for the accessions list of the Bulletin. A change in the size of type has now been made, by which the printed entries on cards become more legible. The same type is not adapted to the form of the Bulletin, and the printing of book accessions therein will therefore be discontinued, but galley-strips of such titles will be issued for distribution to the different departments of the University.

The Bulletin, accordingly, will hereafter be the channel for communicating, as heretofore, the official records of the governing boards of the University, and such bibliographical matter as may from time to time be prepared.

DUDLEIAN LECTURES.

The Library has no copy of the following Dudleian lectures:—

- | | |
|-------------------------------------|---------------------------------------|
| 1800. Thomas Prentiss, of Medfield. | 1807. Aaron Bancroft, of Worcester. |
| 1803. Eliphalet Porter, of Roxbury. | 1823. Ichabod Nichols, of Portland. |
| 1804. John Eliot, of Boston. | 1841. David Damon, of West Cambridge. |

It is believed that none of the above were printed. If the manuscripts are in existence the Library is desirous of obtaining either the originals or a copy of them. Of the following, which were printed, the Library has only the manuscripts, and would like to obtain printed copies:—

- | | |
|--------------------------------------|-----------------------------------|
| 1766. Ebenezer Pemberton, of Boston. | 1824. James Flint, of Salem. |
| 1772. Benjamin Stevens, of Kittery. | 1828. Francis Parkman, of Boston. |
| 1774. Samuel Webster, of Salisbury. | |

Any person who can aid the Library in securing any of these desiderata will confer a favor by addressing the Librarian.

This book was a novel abounding in valuable Indian legends and traditions. The author tried to name it for Eona Guskoh, who, it is conjectured, commanded the Cherokees when they attacked and defeated Gen. Williamson in 1776. It was suppressed, not for want of literary and statistical merit, but because the Judge handled without gloves popular men in western Carolina for their treatment of the Cherokees; but a few copies got afloat and did all the damage he feared. — S. The author was born, and reared in part, in North Carolina. He began preaching in his 17th year and travelled much in North Carolina and Virginia.

"Some of my readers may say I ought not to mention the opposition I have met with from men and preachers of different professions, inasmuch as they may say — *it looks bad*. But to those who think so, I only observe, that it is the *action*, and not the *telling* of the action that *looks bad*." "This book may be read by many who would wish to know to what society this man belongs? To this, he would only answer that he professes to be a *Pilgrim* and *stranger on the earth*, a *Christian*, *belonging to the church of the first born whose names are written in Heaven*." — *Conclusion.*

Thorne claimed it was because of his "radical republicanism." This publication reprints the "blasphemous document" which was an answer to Rev. University Magazine, North Carolina.

This publication has had many ups and downs of fortune, and the value of its contents historically varies as much as the conditions of publication. Under the administration of Gov. Swain, considerable interest was manifested; it was the organ of the State Historical Society, and the ante-bellum volumes are a store house for colonial history. Nearly all the shorter articles of value published between 1852 and 1861 on the history of North Carolina saw the light through its pages. It was killed by the war; was resurrected in 1878, and died at the end of the year. It was again revived in 1882; but, being under the entire control and direction of students, was of very little value for some years. About 1886 it began to improve, and the next three or four volumes contain a number of valuable papers, and some portraits.

The following is a complete list of the volumes and numbers issued:

The first number appeared in March, 1844, 8°. pp. 48. Numbers appeared in that year for Mar., April, May, June, July, Aug. and Sept. (one), Oct., Nov., and Dec., 10 nos. in 9, pp. 495, with appendix, pp. 120, 76. The publisher was not aware of the custom of issuing only ten numbers of college papers, and had promised twelve. To redeem his promise, he took the Indexes to Colonial Documents (8°. pp. 120), published in 1843, and the Proceedings of the Safety Committee of Wilmington (8°. pp. 76), published 1844, put a Magazine cover on them, labeled them December, and presented them "by way of Appendix to the Magazine proper." With this appendix "the publisher closes the publication of the Magazine under considerable pecuniary loss, and hope [sic] that those who are in arrears will now remit the amounts due, and lighten the burdens of this profitless enterprise." This volume is very rare.

The first revival was in 1852. Vol. I. of this second series has numbers for Feb., Mar., April, May, June, Aug., Sept., Oct., Nov., Dec., 10 nos., pp. 464, with title page and index.

Vol. II., 1853, Feb., Mar., April, May, June, Aug., Sept., Oct., Nov., Dec., 10 nos., pp. 504, title page and index.

Vol. III., 1854, Feb., Mar., April, May, June, Aug., Sept., Oct., Nov., Dec., 10 nos., pp. 480.

Vol. IV., 1855, Feb., Mar., April, May, June, Aug., Sept., Oct., Nov., Dec., 10 nos., pp. 476, title page and contents.

Vol. V., 1856, Feb., Mar., April, May, June, Aug., Sept., Oct., Nov., Dec., 10 nos., pp. 476, title page and contents, iv.

Vol. VI., 1857, March, 1 no., pp. 48; no other numbers of this vol. issued.

Vol. VII., 1857-58., Aug., Sept., Oct., Nov., Dec., 1857; Feb., Mar., April, 1858, 8 nos. issued, pp. 396, title page and contents, ii.

Vol. VIII., 1858-59, Aug., Sept., Oct., Nov., Dec. 1858 and Feb. 1859 (one), March, 7 nos. in 6, pp. 336, no title page or contents; no other numbers published.

Vol. IX., 1859-60, Aug., Sept., Oct., Nov., Dec., 1859, Feb., Mar., April, May, June, 1860, 10 nos., pp. 648, 10 portraits, title page and contents, vii.

Vol. X., 1860-61, Aug., Sept., Oct., Nov., Dec., 1860, Feb., Mar., April, May (of this May number only 16 pages seem to have been printed, and I am doubtful if it was ever published. I know of but two copies), 1861, 8 nos., plus, pp. 523, no title page or contents, 8 portraits.

The Magazine was killed by the war, and was revived in 1878, third series. Vol. I., Mar., April, May, June, 4 nos., pp. 168, 2 portraits.

Vol. II., Sept., Oct., Nov. and Dec. (one, called Nov. on first page and numbered 3), 4 nos. in 3, pp. 160, 1 portrait.

Died again; revived the third time, making fourth series; from Feb. 1882 till and including Oct. 1884, it was called the

University Monthly; the editors then went back to the earlier name; the publication is the same.

Vol. i., 1882, Feb., Mar., April, May, June, Sept., Oct., Nov., Dec., 9 nos., numbered 8, pp. 80-130.

Vol. ii., 1883, Jan., Feb., Mar., April, June, 5 nos., pp. 188.

Vol. iii., 1883-84, Sept., Nov., Dec., 1883, Jan., Feb., Mar., April, May, June, 1884, 9 nos., pp. 440, 1 portrait.

Vol. iv., 1884-86, Oct., Nov., Dec., 1884, Jan., Feb., Mar., April, June (cover, on first page, *May*), 1885, 7 nos., pp. 345.

Vol. v., 1885-86, Oct., Nov., 1885, Jan., Feb., Mar., April, May, June, 1886, 8 nos., pp. 369, 1 portrait.

Vol. vi., 1886-87, Sept., Oct., Nov., Dec., 1886, Jan., Feb., Mar., April, May, June, 1887, 10 nos., pp. 479, 8 portraits.

Vol. vii., 1887-88. This year the management was changed, and it was determined to issue only six numbers a year. These have appeared at irregular intervals. Oct., Dec., 1887, Feb., April, May, July, 1888, 6 nos., pp. 292.

Vol. viii., 1888-89, with this year the *month* ceased to appear, and they can be referred to only as nos. 1, 2 (1888), 3, 4, 5, 6 (1889), pp. 290, 3 portraits, title page and contents, iv.

Vol. ix., 1889-90, nos. 1 (1889), 2, 3, 4, 5, 6 (1890), pp. 343, 8 portraits.

Vol. x., 1890-91, nos. 1, 2 (1890), 3, 4, 5, 6 (1891), pp. 290, 3 portraits.

Vol. xi., 1891-92, nos. 1, 2 (1891), 3, 4, 5, 6 (1892), pp. 303, 1 portrait.

Vol. xii., 1892-93, nos. 1, 2 (1892), Jan., Feb., Apr., May, 1893, pp. 303, 7 portraits, title page and contents, iv.

There is no complete collection of the *University Magazine* in existence. The most complete sets are that of the Hon. Prof. Kemp P. Battle of the University, which lacks the appendix for 1844, and the set of Rev. Joseph Blount Cheshire of Charlotte, lacking the number for May, 1861; the set of the compiler lacks numbers for May and June, 1852, Nov. 1855, and May, 1861.

Summarized in *Mag. of Amer. Hist.*, Nov. 1889.

"Dr. Weeks, in the preparation of this volume, has rendered a service to Southern literature which only the specialist can appreciate. From Mason and Dixon's line southward the incunabula and early writers of the colonies are practically unknown qualities. . . And with this careful study of North Carolina printers and printing naturally comes new light on its early publicists. One turns in vain to any of the ordinary works on American literature concerning the colonial papers and literature of this State. . . The fullest and most satisfactory portion . . . is that dealing with the laws of the colony and State."—P. L. FORD, in *Library Journal*, May, 1891.

A summary in Annual Report of Association for 1890, pp. 97-98.

The author gives an account of Raleigh's attempt to colonize Virginia [North Carolina] and reproduces the

authorities for such facts as have been preserved. He then advances arguments to prove that the Croatan Indians now living in Robeson county, North Carolina, are lineal descendants of the colonists left on Roanoke Island in 1587, by John White. The conclusions reached from printed authorities are confirmed by the traditions, by the character and disposition, by the language, and by the family names of this tribe of Indians. The paper is a very able one, showing much patient and praiseworthy research. — *N. E. Hist. and Genealog. Register*, Jan. 1892.

— The religious development in the province of North Carolina. Johns Hopkins University *Studies in Historical and Political Science*, May-June, 1892, x. 239-306.

"The purpose of this paper is two-fold. In the first place the writer seeks to show that the earliest settlers in North Carolina were not religious refugees; that they came to the province not from religious but mainly from economic motives. In the second place he will trace the progress of the struggle for an Establishment, and will show that, beginning with 1701, the Episcopal Church was for three-quarters of a century the legal church in North Carolina; that, while there was *toleration* for Dissenters, under the rule of this Establishment, there was not, and from necessity could not be, freedom of conscience and soul-liberty in the absolute sense of those terms; that religious freedom, like political freedom, was a growth, and was won only by long and continued struggles.

"The writer came to his subject with the belief that the colony had been settled by religious refugees and that there had been absolute freedom of religion."—*Introduction*.

"His array of authorities and careful and conscientious interpretation of the same, leaves no doubt in the mind that these conclusions have been legitimately reached. . . Of course the matter is confined to a rather limited sphere. But to historical students in general the process of advancing from a long cherished and confidently adopted position to its diametrical opposite, is instructive in many ways."—*National Magazine*, Sept. 1892, xvi. 583.

Compiled from original records, official documents, and traditional statements. Vol. i., pp. 138, deals with the settlement and growth of the colony, with chapters on the press, literary institutions, internal improvements, and resources. Vol. ii., pp. 480, gives a history of each county in the State, with a list of its representatives in the State legislature, 1777-1850, and short biographical sketches of many prominent men.

It is a great store house of tables, lists, facts, and names. C. K. Adams well calls it "a jumble of ill-digested material."

It can be used as a source only with the greatest care, for blunders of all sorts are astonishingly common. Unsupported it is of little authority.

Wiley, Calvin Henderson (1819-1887), *D. D., Educator, Presby. minister.* North Carolina Reader. Philadelphia: Lippincott, Grambo & Co. [1851.] 12°. pp. 359. *Illustrations.*

Part I., pp. 21-40, gives a general description of N. C. Part II., pp. 91-223, gives a sketch of the colony and province up to the adoption of the constitution in 1789. Part III. consists of selections in prose and verse, mostly by N. C. authors, and many of them about N. C.

It was the intention of Mr. Wiley if this reader succeeded, to make a full series, the one first published to be the last number for the higher classes, and the others of a more juvenile nature. Before this plan was carried into execution Mr. Wiley became superintendent of public instruction in N. C. (1853), and then transferred his interest to Prof. F. M. Hubbard, who completed the series under his supervision and by his aid. Mr. Wiley at the same time revised the whole of his original work. This revision differed from the original only in a few omissions, and was issued by A. S. Barnes & Burr, New York, 1856, 12°, pp. 345; reissue in 1880, 1874, etc.

The North Carolina Reader Number II. was published under the editorship of Prof. Hubbard in 1856, A. S. Barnes & Burr, New York; 12°, pp. 195; reissue, 1873, etc. This is intended for younger children, and is made up of general selections, there being little about N. C.

In reviewing this work in the *North American Review*, xii. 37, Jared Sparks says:

"We have seldom attempted to read, in the shape of history, so meagre, and so unsatisfactory a performance. It

contains but few facts, and these, one would suppose, the author took pains to select from the most unimportant of such as had fallen in his way. . . It is certainly unfortunate, that his book should go abroad purporting to be an accurate and complete history."

"Though this work, in amplitude of margins and generosity of type, presents an attractive appearance, it is exceedingly unsatisfactory to the reader. The author apparently cared nothing for historical perspective; for he selected his topics with the most astounding disregard of their importance. But for the position, and even fame, of the author, the work would be quite unworthy of notice."—C. K. ADAMS, in his *Historical Reference Manual*.
